

eti[®] SNOW SWITCH[®] IN-LINE FUSE KIT

EUR-5A APPLICATION

The figure to the left shows connections for a pair of 1.5 Amp in-line fuse connections to protect the EUR-5A. These fuses are to be added to the sensor circuit. Failure to do so can result in damage to the EUR-5A if any sensor shorts out.

If there is not a fuse already at the panel, an optional fuse may be connected from terminal 36 ("24 VAC") to the voltage supply.

IN-LINE FUSE KIT | PART NUMBER: 21184

| QUANTITY | PART NUMBER | DESCRIPTION |
|----------|-------------|---------------------------|
| 2 | 18720 | Wire Nut, Orange |
| 1 | 21188 | Fuse Assembly, Red Wire |
| 1 | 21189 | Fuse Assembly, Black Wire |
| 1 | 21190 | 1.5 Amp Spare Fuse |
